

Annan Town Hall

Annan Active Travel

Annan is a town on the north shore of the Solway Firth eight miles from the English border, which lies on the east side of the River Annan and began as a river port in the 14th century.

Site visits, public meetings and reporting by Connected Transport Planning combined with engineering solutions prepared by Narro resulted in a comprehensive study of the area.

TGP were appointed to carry out a report on the description and visualisation of the existing footpaths and pedestrian links within the town centre and identify the existing constraints for pedestrians and cyclists.

Design Concepts:

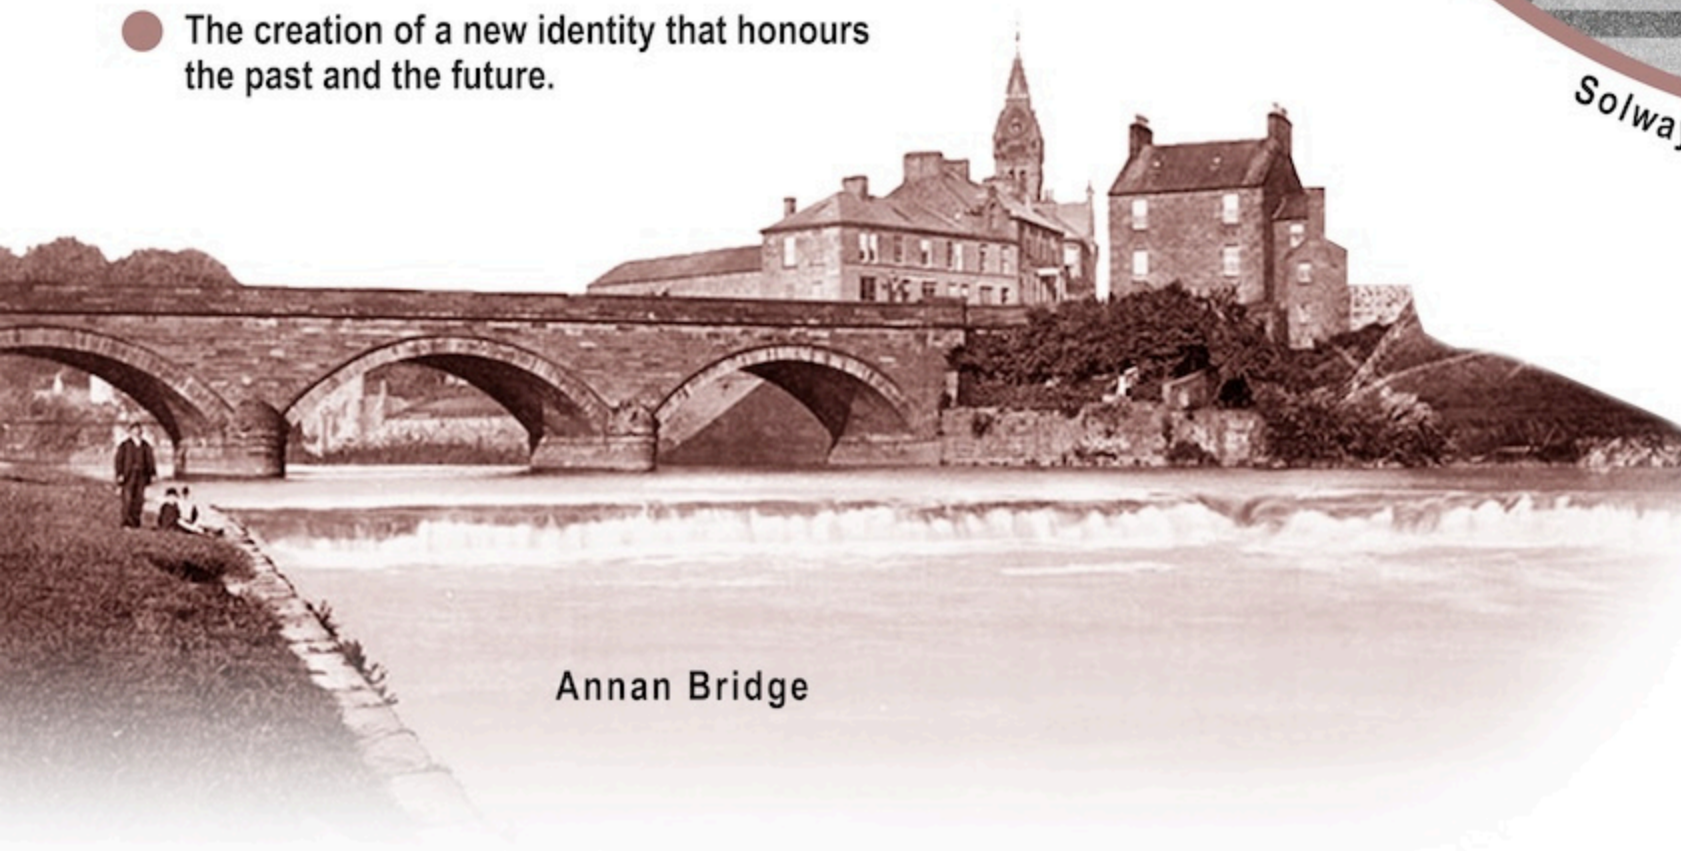

- A fully accessible network to be enjoyed by all.
- A high quality pedestrian and cycling experience throughout Annan.
- Enhancement of Public Spaces & Streets.
- Improved legibility for visitors & active travellers.
- Improve linkages to the surrounding schools, station, and Riverside Walkway
- The creation of a new identity that honours the past and the future.
